# Business sites in different countries? Save substantially on costs with Centralised Billing.

## Fast and convenient invoicing

Having branches in several European countries is challenging on the invoicing process, due to different printing and distribution partners. With Centralised Billing, this is no longer an issue. PostNL will print and envelop all documents, from invoices to reminders. We centrally purchase the printing matter and use the best-priced distribution solutions. At the same time we store your sent documents. This approach guarantees a fast, convenient and advantageous process for all your invoices.

## On time, on target

We ensure that invoices, statements, dunnings and other critical correspondence sent to your customers are delivered on time, to the right person and through the appropriate channel. Since this is our core business, you can be assured of the necessary expertise, business continuity and flexibility.

## E-billing

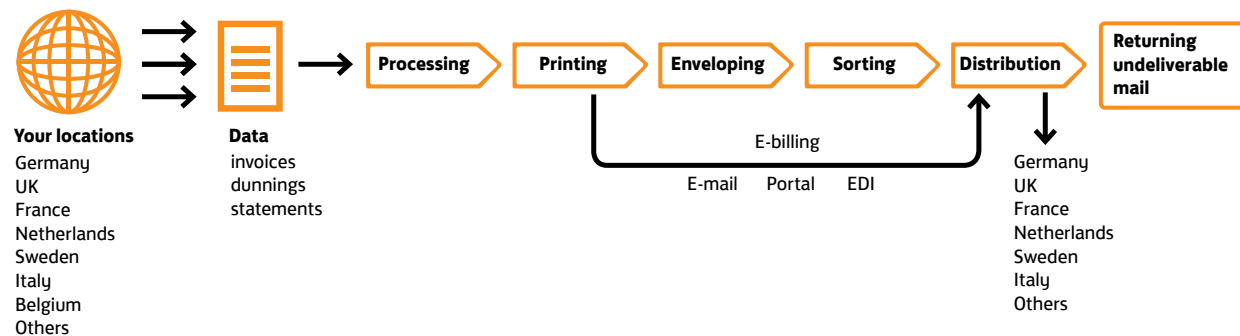

We are frontrunners when it comes to e-billing and e-document solutions, offering the solutions that suit your company best, whether printed, digital or a combination of the two.

## Why Office Depot chose PostNL

Office Depot implemented a key consolidation of its transactional processes. Before, every country had its own set of documents. The company decided to centralise both production and mailing in order to achieve significant cost savings. Since printing took place at different locations, production costs were very high, involving a vast number of people, multiple stocks and numerous postal contracts. Centralising the European invoicing and related transactional processes resulted in major cost savings. Furthermore it strengthened the company's corporate message to customers. All in all, PostNL offered Office Depot a strong combination of mail, print and implementation.

## Our steps to flexibility and control

PostNL is a reliable partner when it comes to the physical and digital handling and distribution of your complete billing process.

More control and flexibility with one partner for the whole of Europe

Cost savings from economies of scale on printing and distribution

Would you too like a more efficient invoicing process?
