New: We will be open on Easter and Whitsun

We will be kicking things into high gear in the coming months. For example, by investing in additional capacity on Sundays. This year we will even be open on Easter and Whitsun! On those days we will take care of your structural delivery agreements. This will enable us to process as many parcels as possible, ensuring that you can spread out your deliveries throughout the week. If your company has a built-in rest day around Easter and Whitsun, please notify us in a timely manner through Mijn PostNL or your service team. We recommend you to make use of the Sunday delivery option, if you're not already doing so.

Closed? Let us know in a timely manner

King's Day and Ascension Day are rest days for us, so we will be closed. We will not be picking up parcels and you will not be able to deliver parcels to a sorting centre on those days.
